

## ROOSEVELT, CHURCHILL IN WAR COUNCIL

## OPA Sets Ohio Retail Meat Price Ceilings

NEW SCHEDULE  
GOES IN EFFECT  
NEXT MONDAY

Reported as Lower Than Pre-  
vious Living Cost Index; Big-  
ger Cut Expected June 1.

Retail ceiling prices in terms of  
cents and cents for all beef,  
veal, lamb and mutton sold in  
Ohio were announced today by the  
regional office of price adminis-  
tration in Cleveland, effective on  
next Monday.

The schedules are for fresh,  
chilled or frozen meats.  
The entire state is covered by  
two price lists. The first is for  
stores in classes one and two,  
independents with gross annual  
business of less than \$250,000.  
The second, with slightly lower  
ceilings, is for class three and four  
stores—all of Ohio's chain stores,  
regardless of business volume, and  
independents with annual volume  
above \$250,000.

All grades of meat are covered  
in the two schedules. The five  
grades of beef and veal are AA  
or choice; A or good; B or com-  
mercial; C or utility and D or cut-  
ters and canners. Mutton is grad-  
ed in S or prime; choice and good;  
B or commercial and R or utility  
and culls. Lamb is graded as AA  
or choice; A or good; B or com-  
mercial and C or utility.

Grades of Meat  
The specific prices are tied to  
various grades of meat. Retailers  
are required to post the grades  
of meat they display in their stores  
and segregate the various grades  
in their displays. Thus, consum-  
ers are able to check compliance  
with the ceilings.  
The new prices represent a re-  
duction in most cases of from one  
to three cents from ceilings origi-  
nally scheduled to take effect  
April 15. Further and more sub-  
stantial reductions in these prices  
will be made on June 1 in ac-  
cordance with a general "roll-  
back" of prices announced by  
Price Administrator Brown on  
May 7.

It is estimated that prices an-  
nounced today will slightly re-  
duce the retail prices of meats as  
shown in the February, 1943, cost-  
of-living index. The decrease from  
March and April index prices is  
expected to be greater.

In calling attention to the re-  
quirements that the storekeepers  
designate the grades of meat they  
display, Clifford L. James, dis-  
trict price executive, said retail-  
ers are already required to sepa-  
rate the different grades of meat  
they display, and the amendment  
affords them an opportunity to  
keep check on the separation and  
to assist their customers. All meat  
is graded into five grades and  
appropriately marked at the time  
of grading and marking is  
performed by expert impartial  
graders of the United States De-  
partment of Agriculture, accord-  
ing to the requirements and ob-  
jective standards provided in the

SOME COUNTY OFFICE

Too High, Is Finding of Survey  
Report.

Reviewing operations of the  
Marion county government, rep-  
resentatives of the research de-  
partment of the Ohio Chamber of  
Commerce commended three  
county offices for reducing oper-  
ating costs but criticized most of  
the county offices for excessive  
spending in a meeting with coun-  
ty officials and interested citizens  
at Marion last night.

The report was presented by  
W. H. Evans and W. C. McWil-  
liams of the state C. of C. re-  
sident representative, who visited  
Marion several weeks ago to check  
the business of the county.

Daugherty, Winchester, Ind., Nelson Davids, Long Island, N. Y., W. F. Lynch and S. L. Williams, both Chicago, all in naval service.

WOMEN'S WORK  
HOURS RELAXED

Measure Goes Back to Senate  
for Approval of Emer-  
gency Clause.

By The Associated Press  
COLUMBUS, O., May 12—Relaxation of Ohio's protective laws  
so women and minors may work  
longer hours during war time had  
the legislature's approval today.  
The legislation, most controver-  
sial the general assembly has  
handled in many years, was ap-  
proved by the house of representa-  
tives late yesterday after three  
and a half hours of debate.  
It goes back to the senate for  
concurrence in an emergency  
clause making the bill effective as  
soon as it is signed by the govern-  
or. Without the emergency, 90  
days must elapse.  
Although the senate rejected the  
emergency provision in passing the  
bill April 20, leaders said they  
believed the upper branch would

Wear a "Star of Honor"  
for Your Boys in Service

The Star of Honor, that new  
and most attractive tribute to  
be worn by the home folks  
in honor of the men and wo-  
men in the armed forces has  
arrived in Marion and can be  
obtained at The Marion Star.  
The emblem, fashioned of

a critical war material) is  
large enough to be seen easily yet small enough  
to be decorative without being  
overdone, and has a small clasp  
which permits it to be fastened

400 Women Take Part in Notable Com-  
munity Wartime Service, Record on  
First Anniversary Shows.

By BOB BYRD  
The Marion Woman's Canteen at the Union Station rounded out  
a year of operation yesterday.  
In the 12 months since the canteen opened its doors, some 400  
Marion women have written one of the finest chapters in this coun-  
ty's history of home front activities, and have done it without the  
benefit of fanfare or publicity. And they've done it entirely volun-  
tarily, only because they get to see first-hand, convincing evidence  
that they're doing some good.  
The canteen operates under  
serious difficulties and handicaps,  
but you couldn't stop that army  
of 400 women any easier than  
you could halt a Yankee advance  
on the battlefields. One canteen  
worker seemed to cover both the  
battle front and home front jobs  
in one sentence. "It's a job that  
needs to be done; we're simply  
doing it."  
The women operate in teams,  
serving four hours each. Three  
teams are on the job each day,  
from 10 to 2, 2 to 6 and 6 to 10,  
thus giving service to all troops  
going through Marion from 10 a.  
m. to 10 p. m.

Work Increasing  
However, those first six months  
proved to be just the beginning.  
In a five-week period early this  
year, 22,352 service men and wo-  
men were on trains that stopped  
at the station—a volume that tried  
the stamina of the women volun-  
teers, who stuck to their jobs  
through bitter weather of all kinds  
and with little equipment.  
In one day 2,500 service men  
and women went through Marion,  
and the teams on duty that day  
were ready to drop from sheer  
exhaustion.  
Troop train movements aren't  
announced in advance, and when

WHEAT CROP IN  
OHIO DAMAGED

Production Will Be 32 Per  
Cent Below Production  
Last Year.

By The Associated Press  
COLUMBUS, O., May 12—Un-  
favorable winter weather dam-  
aged Ohio's winter wheat crop so  
extensively 1943 production will  
fall 32 per cent short of last year's  
output, the federal-state crop re-  
porting service estimated today.  
With approximately the same  
number of acres planted this year  
as last, prospects on May 1 in-  
dicated the 1943 crop would total  
approximately 24,668,000 bushels,  
the service said.  
Loss of wheat acreage, mainly  
through winter killing, was esti-  
mated at nine per cent of the  
wheat planted for the heaviest  
abandonment of wheat land in 13  
years. This compares with a 2.5  
per cent loss last year.  
The greatest loss occurred in  
southwestern Ohio, the service de-  
clared, while north-central and  
northeastern counties suffered the  
least.  
In many cases fields of por-  
tions of fields have been torn up  
and will be planted to other crops  
while in many other instances  
crops have been drilled in the poor  
wheat fields, the report stated.  
The yield per acre is expected to  
be 16.5 bushels compared with  
21 in 1942 and an average of 20.2  
for the 10 years ending in 1941.  
Meadows also suffered more  
heavily than usual from winter  
killing and both meadows and  
pasture have been retarded by  
the slow spring season, the report  
said.  
The number of cows milked in-  
creased slightly but per-cow out-  
put dropped five per cent.  
Egg production in April aver-  
aged 1,738 eggs for 100 layers as  
against 1,794 for the same month  
last year, while total production  
was 318,000,000 eggs, a gain of  
13,000,000. Maple syrup output  
was estimated at 193,000 gallons  
for 1943, a nine per cent increase.

Marion County Set For  
Area Blackout Tonight

Final Arrangements Made To Darken 9-County Dis-  
trict; Time Not To Be Disclosed in Advance.

Marion county and eight other central Ohio counties will partici-  
pate in a blackout tonight in another of the state's major Civilian  
Defense tests leading up to a statewide blackout later.

Various heads of the county's CD council this morning were as  
much in the "dark" as John Q. Public as to the time of the start of  
the test, length of the blackout and other details kept secret by state  
headquarters.

In fact, no member of the local council will be informed of the  
start of the test until immediately  
preceding the first audible local  
signal. All signals will originate  
at state headquarters in Colum-  
bus. The first signal, as well as  
subsequent ones, will be received  
at the city police station. Follow-  
ing the first call police officers on  
duty at headquarters will sum-  
mon key personnel of the local  
control center located in the  
North State Street school build-  
ing. Thirteen or more sub-divi-  
sions of the council will be mobi-  
lized by the sounding of factory  
whistles for two minutes in a  
steady blast. At this same signal  
buildings and streetlights will be  
blacked out but traffic lights will  
remain on to allow traffic to con-  
tinue at a reduced speed and with  
lights dimmed. Only traffic which  
is absolutely necessary will be  
permitted to continue.

Choppy Blasts Next Signal  
The next audible warning will  
be a series of short choppy blasts  
of factory whistles for two min-  
utes. All buildings and street  
lights will remain blacked out but  
traffic signals will be turned off.  
Only vehicles of the CD council  
or of inspecting state officials will  
be allowed on the streets. Others  
will be ordered to the curb. Like-  
wise, only authorized CD work-  
ers will be permitted on the  
streets. Other pedestrians are to  
seek cover immediately.  
The third whistle, another  
steady blast of two minutes, will  
be the signal for traffic lights to  
be turned on and for traffic to  
resume at a slow speed and with  
lights dimmed. Pedestrians may  
leave cover after this signal.  
No signal will be used to indi-  
cate the "all clear" or end of  
the test. William R. Martin,  
Marion county CD coordinator,  
said when street lights are turned  
on, normal activities may be re-  
sumed.

Separate councils are set up in  
six rural communities to handle  
Civilian Defense activities for  
large areas around the villages as  
well as the villages themselves.  
Organizations of this type func-  
tion at LaRue, Prospect, Green  
Camp, Waldo, Caledonia and Mor-  
ris.

Counties participating in the  
big test tonight besides Marion  
county are Morrow, Delaware,  
Franklin, Madison, Licking, Fair-  
field, Pickaway and Hocking.  
3,000 To Participate  
About 3,000 Marion county  
men and women will participate  
in tonight's test. CD officials here  
estimate. This will include about  
750 air raid wardens, 135 auxiliary  
police men, 45 auxiliary firemen,  
40 demolition workers, 65 am-  
bulance corps members, 100 med-  
ical unit workers, 150 auto and  
truck drivers and large numbers  
in other departments.  
Tonight's test will be a com-

plete blackout except that war  
plants will not be darkened. Most  
plants, however, have assured the  
Marion Civilian Defense unit that  
all unnecessary lights would be  
turned off. The Marion Engineer  
Depot will participate in the

War bonds were the principal  
item of business when two of  
Marion county's Granges, county  
war bond committee heads and  
the Harding High School capella  
choir joined forces at Martel last  
night to stage the first of a series  
of rural bond rallies designed to  
stimulate interest in the "buy a  
bomber" campaign which needs  
\$225,000 in war bonds this month  
to assure the drive of success.  
The occasion was originally  
planned as a joint session of Mar-  
tel and United Granges in which  
a traveling flag was carried to  
Marion to be continued on its tour  
of the county Granges.

Through Elmer J. Schoenlaub,  
county war savings chairman, Carl  
E. Danner, bomber drive chair-  
man, and A. J. Loudenslager,  
leading the rural phase of the  
war savings committee, and with  
the help of the Harding choir led  
by L. G. Jones, the gathering was  
converted into a full-fledged bond  
rally.

Before the rally ended bonds  
having a maturity value of \$1,800  
were sold and promises of addi-  
tional purchases later were given.  
The choir was taken to Martel  
in 13 private automobiles.  
The proceedings started with  
Martel Grange holding a brief  
business session in charge of its  
master, Kenneth Pangborn.

Then came brief talks by Mr.  
Schoenlaub, Mr. Loudenslager and  
others, the choir program, a bond  
selling session, a program by Uni-  
ted Grange members, presentation  
of the traveling flag and the pro-  
ceedings broke up at midnight  
with refreshments.  
Mr. Loudenslager summed up  
the war bond campaign in a few  
words in his brief talk. "No one  
can buy enough bonds to pay for  
one life given on the battlefield;  
no sacrifice here at home can  
compare with the sacrifice our

LEADERS MEET  
AS ALLIES MOP  
UP ON CAP BON

80,000 Axis Troops in Trap;  
Prisoners Pass 100,000  
Mark.

By The Associated Press  
President Roosevelt's conference  
in Washington with Prime Min-  
ister Churchill, staged against a  
background of "mop-up" Europe  
expectations, coincided with re-  
ports today that Adolf Hitler, sud-  
denly had moved his headquarters  
from east to west as the sands of  
the Tunisian battle ran out in  
crushing defeat for the axis.  
The axis itself frankly termed  
the next phase of the war "the  
battle for Germany."

On the Tunisian front, a bul-  
letin from Gen. Dwight D. Eisen-  
hower's headquarters said British  
First army patrols completely had  
circled the Cap Bon peninsula,  
where perhaps 80,000 axis soldiers  
were hidden in the hills, and de-  
clared allied forces also had en-  
circled enemy holdout forces west  
of Bou Fichta.

Bou Fichta lies 11 miles south-  
west of the peninsula town of  
Hammanet which fell to the  
British yesterday.

Allied warplanes called a halt  
to their bombing of Cap Bon pen-  
insula today. It was announced,  
because of the danger of hitting  
allied troops now infiltrating vir-  
tually the entire area.

Axis prisoners passed to the  
100,000 mark or beyond, including  
37,000 captured by the American  
Second Army corps alone.

Axis Ittemed In  
The Germans and Italians  
southwest of the peninsula were  
hemmed in a circular area only  
about 10 miles across, and this  
was being given severe punish-  
ment by the air forces as well as  
by the troops, but the communi-  
que said "the lack of suitable tar-  
gets indicated the approaching  
end of the air battle over Tun-  
isia."

While many Germans still were  
at large on Cap Bon's inland  
peninsula, they were mostly ser-  
vice personnel not much interested  
in fighting.

The total of prisoners was ex-  
pected to pass the 100,000 mark  
This completed the count in the area  
of the Second U. S. Army Corps  
showed the Americans, French  
Free Corps and Moroccan Gun-  
niers had taken 37,000 prisoners,  
of whom 33,400 were Germans.  
The Germans and Italians were  
offering considerable resistance in  
the mountains west of Bou Fichta  
and north of Enfidaville.

They had been wedged off from  
Cap Bon by British armor driving  
south from Tunisia which had  
reached Bou Fichta on the coastal  
road 11 miles southwest of Ham-  
manet on the peninsula and 15  
miles north of Enfidaville.

15 Planes Shot Down  
Besides setting large fires in the  
railroad yards, warehouses and  
seaplane base at Marsala, Sicily,  
yesterday, the strategic air force  
heavy and medium bombers and  
fighter escort shot down 15  
axis planes during the attack, it  
was announced.

In the air attack yesterday on  
Pantelleria Island, the sixth in  
four days, a number of small  
vessels were hit by bombs and  
fires were started in the dock  
area, headquarters said.  
Besides sending patrols to the  
tip of the Cap Bon promontory,  
the allied forces attacked the axis

Japs and Nazis Both Seen  
As Discussion Subjects

By The Associated Press  
WASHINGTON, May 12—President Roosevelt and Prime Min-  
ister Churchill are holding another council of war today with the  
trumpets of the Tunisian victory still sounding and the allies poised  
to pound the axis in both Europe and the Pacific.  
The commuting British chieftain arrived last night on his third  
wartime trip to Washington, ac-  
companied by a staff of military  
and naval experts.

As he and Mr. Roosevelt sat  
down to bring the enemy still  
closer to their "unconditional sur-  
render" demands, the "Tunisian  
success swept offensive strategy  
to a point where the United Na-  
tions high command could start  
activating plans for the next blow  
at previous meetings between the  
two leaders and now due to be  
perfected and extended.

Across the sea, Hitler suddenly  
shifted his headquarters from the  
east to the west, according to the  
German radio, and doubtless  
wondered where the blow or blows  
would fall.

Observe Price Ceiling

By The Associated Press  
COLUMBUS, O., May 12.—State Liquor Director Don A. Fisher said today any nationwide rollback of liquor prices to approximately the March, 1942, levels would not affect Ohio.

He commented on Washington reports the office of price administration was preparing a program to place specific retail and wholesale prices on all types of hard liquors this month or next.

Washington OPA sources who declined to be quoted indicated ceiling provisions of the general maximum price regulations were being disregarded widely, but Fisher declared Ohio prices always had been worked out in "close cooperation" with the OPA.

**PLAQUE FOR BOYS IN SERVICE UNVEILED**  
Nine Honored in Ceremony of B'nai B'rith Lodge.

At a regular meeting of Marion Lodge No. 864, B'nai B'rith, a plaque was unveiled in honor of the nine local boys of the Jewish faith now in the armed forces of our country.

The following names appear on the plaque: Sam Birnbaum, Milton Birnbaum, Isador Birnbaum, Carl Hess, Lester Hulm, Albert Lieb Jr., Robert Rosenberg and Harold Goldstein.

Acting City Solicitor Russell M. Birnbaum, chairman of the war bond committee for the lodge, reported that to date the lodge had purchased \$15,000 in bonds for the May drive to purchase a Mac-

William gave an address, stating that this country affords equal rights to all, and that this is a very opportune time for all at home to plan what can be done for all boys upon their return from army service.

He expressed his personal aversion to war and said that America today is waging a conflict for its own future preservation. The address was followed by unveiling of the plaque and Mrs. Birnbaum offered a prayer for all men in armed services, asking for their divine guidance and a safe return to home and country.

M. Coen, chairman of the war bond committee for the lodge, reported that to date the lodge had purchased \$15,000 in bonds for the May drive to purchase a Mac-

**WHAT TO DO WITH FATS DURING RATIONING**

**FIRST**—Save every drop from pan drippings, gravy skimmings, etc., to use again in your cooking. The government has asked for fats to make gunpowder—but it doesn't want them until you've got all the cooking good you can out of them, for various dishes you may want to make.

**THEN**—When all the cooking good is gone, don't throw your used fats away. They're desperately needed for gunpowder. Every little bit counts. Just one tablespoon will fire five machine gun bullets. Even with rationing, you can save that much every day. Keep it in a can. Rush each canful to your meat dealer.

MEEKER POSTOFFICE  
TO BE DISCONTINUEDMrs. Vern Day To End 21  
Years as Postmistress.

Distribution of mail at the Meeker postoffice will be discontinued with the closing of business on Saturday night, May 15, and thereafter the mail will be delivered to the homes of the residents of the Meeker route.

Discontinuation of the office was ordered to become effective Sunday, May 16, by the U. S. postoffice department.

Closing of the office will mark the end of approximately 21 years of service as postmistress for Mrs. Vern Day, who succeeded George Opperman. The office has been conducted in connection with a general store operated by Mr. and Mrs. Day for the last 22 years.

Mrs. Day took over her duties in July and received her commission as postmistress on Aug. 3, 21 years ago.

The patron will be served by Rural Route No. 3, carried by Clyde H. Hoxey.

HARDING HIGH STUDENT  
COUNCIL HEADS CHOSENCharles Elliott Elected President  
For Coming Year.

Officers for the 1943-44 school year were chosen at the first meeting of the newly-elected Harding High school student council at the school yesterday.

Charles Elliott, a senior next year, was elected president of the council with Tom McGinnis, another member of the class of 1944, being selected vice president. Arlene Hill, who will be a twelfth grader next year, was reelected council secretary and Peggy Burke was chosen treasurer. Miss Burke at present attends Central Junior High school and will be a Harding sophomore next year.

The final council meeting of this school year will be held at the school during the noon hour next Tuesday.

Temporary Repairs On  
Highways in County

Most of the bad spots on state highways in Marion County have had some type of repair work, Clyde Porterfield, Marion county state highway maintenance superintendent said today. The highways were damaged more than usual this winter and spring due to the exceptionally severe weather conditions and heavy traffic loads of the war emergency, Porterfield said.

Much of the road repair work has been temporary due to the necessity of keeping the highways open for industrial and military traffic. When the weather will permit, permanent repairs will be made, Mr. Porterfield said.

LETTERS FROM  
OUR READERS

MORE ABOUT DOGS

Editor of The Star:

Again you are hearing from a reader of The Star. And as before it is about dogs, cats and Victory Gardens. Also various dogs and mad dogs.

I want to ask every dog owner if he or she was ever in Chicago or New York, as I was, and saw little boys and girls, men and women, bitten by mad dogs or cats. I was one of the victims. Yes, it was a little six-month-old pup that bit six of us and we all went to Chicago for treatment. There were 150 others there for treatment too, from Texas to Ohio.

That was in 1910. Now you can get your treatment locally. But remember, dogs and cats can and do carry diseases between their teeth, whether mad or not and whether little or big.

In addition, there is the damage they do to gardens and lawns. Try planting a nice garden with

seed high-priced and hard to get. Or plant a lawn, or flowers, and have a dog or a cat pull or dig them up, as so many do. Yes, brother, you will rue. However, wait till a dog bites the mayor or a councilman or one of the 400 and we will get action. Just another—

By The Associated Press  
MIDDLETOWN, O., May 12—A 1-mill levy, sought by the board of education after school employees demanded a 10 per cent raise in pay, was approved by Middletown voters 1,375 to 518 yesterday in a special election. It was the first such election to be held in the state under a new law empowering school boards to call such elections to meet operating expenses without filing petitions with the state election board. Only 19 per cent of the city's voters participated.

### PRESS ACTION ON LABOR BILL

Military Committee of House Takes Up Measure Aimed at Preventing Strikes.

By The Associated Press  
WASHINGTON, May 12—The house military committee today pressed for action on the toughest labor bill since Pearl Harbor. It had its eye on the troubled coal situation which threatened war production with a nationwide walkout week-end before last. So did the government officials who sought help from four different quarters as a 15-day strike neared its end with no sign of a true cure as yet.

The senate swung into debate on a drastically changed pay-as-you-go tax bill, a Republican split strengthened the administration's hand on renewal of the reciprocal trade program, and a reportedly discouraging milk production outlook resulted in a study of milk rationing proposals.

### Strike Delay Bill

The house military committee sought action late this week on its unanimously approved measure to prevent—or at least delay—wartime strikes. Among other things, the bill would strengthen the war labor board's forces, providing it with subpoena rights, ban jurisdictional disputes, secondary boycotts and sympathy

### OUTLOOK FOR WHEAT CROP NOW IMPROVING

Weather Conditions Improve in Southwest.

By The Associated Press  
CHICAGO, May 12—The pessimistic implications in the latest government winter wheat forecast, showing a substantial decline from last year, are at least slightly negated by recent favorable crop developments, grain experts assert.

The government forecast, issued Monday, set winter wheat production at 515,159,000 bushels against 705,252,000 bushels last year and a ten year (1932-41) average of 550,181,000 bushels. One month earlier the government had forecast this year's crop at 558,551,000 bushels.

Grain experts said, however, the government's forecast was based on conditions as they existed May 1, which was a date on which green bugs were doing much damage in Texas and Oklahoma, and a drought was developing over a wide area west of the Mississippi.

Since the beginning of this month the drought situation has greatly improved.

Crop experts figured the supply situation in this manner: The government now expects a winter wheat crop of 515,159,000 bushels.

The government said March 1 intentions plantings of wheat amounted to 14,700,000 acres.

### Mayor Asman Relected Health Board Head

Special to The Star  
MARYSVILLE, May 12—Mayor William F. Asman of Marysville was re-elected president of the Union county district health board at a meeting of members here Monday. Dr. Jesse M. Conrad of Magnolia Springs was re-elected secretary.

The council made up of mayors of towns and presidents of boards of trustees of townships of the county appointed J. J. McAdow of Jerome township to another five-year term on the Union county board of health. They also appointed Attorney William J. Porter of Marysville to the board to fill a vacancy caused by the resignation of Attorney William Cameron who has gone to Washington to work with the national labor relations board.

### City Manager Plan Is Proposed for Carey

Special to The Star  
UPPER SANDUSKY, May 12—A special election will be held in Carey, June 22. Wyandot county board of elections clerk A. Billhardt Jr. announced today, on the question of adopting the city manager plan of government.

The ballot which has been prepared gives the citizens of Carey the question as for, or against the city manager plan as provided in chapter 4, Section 1-Section 3515-19 of the general code of Ohio.

Tentative plans, sponsored by the village council, for use if the plan is favorably voted on, call for the city manager to replace the board of public affairs, entrusted with most of the municipal business under Carey's present form of government. The change would, they believe give the municipality a more economical and efficient form of management.

B AND C BOOK HOLDERS URGED TO APPLY NOW  
Board Taking Applications for Renewal of Rations.  
Motorists in Marion county operating vehicles with B and C gasoline rations expiring June 1 are being urged to apply for their next period of three months rationing now. It was announced today, C. C. Holliday, executive secretary of the Marion County Rationing board.  
The supplemental or renewal blanks may be secured at gasoline service stations throughout the county or by mailing a card to The Marion County War Price and Rationing Board at 169 1/2 East Center street, Marion, where application blanks will be forwarded by mail.  
Applicants need not take their applications to the board but may mail them, accompanied by their inspection record. Several days before the expiration of the old books, the board will mail the new rations and the tire inspection record back to the applicant.  
R. F. Williams, chairman of the gasoline panel of the local board is appealing to all applicants to make certain the application is properly and completely filled out and that those applications requiring the certification of employer or plant transportation committee must be so certified before mailing in to the board.  
Specimens of Douglas fir tires have been found in Canada which are believed to be more than 700 years old.

**War Workers' Vote Big Problem for Democrats**  
A Gallup Poll on the political intentions of workers in war industries has just been completed in five major production areas—Detroit, Buffalo-Cleveland, Philadelphia-Baltimore, New England, and California. The areas are shown in the above map.  
By GEORGE GALLUP  
Director, American Institute of Public Opinion  
PRINCETON, N. J., May 12—One of the biggest problems facing the Democrats in the 1944 election is how to get the workers in the country's defense factories to vote.  
Last November the Democratic party suffered from an absenteeism at the polls far more acute than in industry. War workers stayed away from the voting booths to a greater extent than the average for the country outside the South, which is one reason why the Democrats lost 48 seats in the House in the Congressional elections.  
On the basis of a series of Institute surveys among war workers culminating last week in an intensive study of five main war production areas—Detroit, Buffalo-Cleveland, Philadelphia-Baltimore, New England, and California—it is possible to estimate the 1942 turnout among war workers as follows:  
Voting Turnout Among War Workers  
Voted in 1942 ..... 42%  
Did Not Vote in 1942 ..... 58%  
New Deal strength is so heavily concentrated in the working classes than non-voting among those classes could have the most serious consequences for Democratic candidates if it persists to the same degree in 1944 as it did in 1942.  
The extent to which labor unions themselves are becoming aware of the turnout problem among their ranks is revealed in the recent action of the AFL in Iowa.  
Labor leaders in that state are reported to have developed and approved a plan by which union dues would be increased 5c or 10c a month, and the money used to pay bonuses to members if they vote on election days.  
How Turnout Affects Democrats  
Among defense workers the evidence shows that those who stayed away from the polls in 1942 included a much higher percentage of Democrats than those who actually voted. That is why the Democratic Party will undoubtedly make every possible effort to see that defense workers, particularly those who did not vote last time, get to the polls in 1944.  
Of those who voted last November, 63 per cent say they plan to vote Democratic next year. Of those who failed to vote last November, a much higher proportion—74 per cent—favor the Democrats for 1944.  
This is shown in tabular form as follows:  
Present Party Preference of War Workers Who Voted in 1942  
Democratic ..... 63%  
Republican ..... 37%  
Present Party Preference of War Workers Who Did Not Vote in 1942  
Democratic ..... 74%  
Republican ..... 26%  
There were a number of reasons to account for the non-voting in 1942. Workers in industry were in many cases too busy to get to the polls, and many who had migrated to defense centers after Pearl Harbor were ineligible to vote in the new community because

# SCOUTS FOR VICTORY

This Concludes

the series of ads on Scouting which was paid for by Marion men interested in making better citizens for

# AMERICA and MARION

We hope we have told the story well. If we have, you will know the next time you pass a Scout on the street that he is probably doing a job which will help you.

You will know that he is pledged to support the Scout Oath and Scout Law which you have read in past ads.

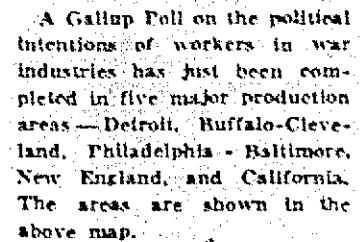

You will know that you can trust him, and that he is sincere.

You will know that he is learning to be a better citizen mentally, morally and physically.

Scouting needs your help and your encouragement

No good cause can succeed without it. Give the boys a hand in any way you can. Let's all pull together for a better America and a quicker Victory.

Perhaps there is no better time than this, to pay respect and give credit to the dozens of solid Marion citizens who are giving liberally of their time as Scout Masters, Scout Commissioners, Committee Workers and in many other jobs, without pay, to help boys. Good service is its own reward — but anyway here's a great big hand!!!!

## CHINA FACES NEW THREAT FROM JAPS

**By The Associated Press**  
A new threat to China's "rice bowl," heightening clashes on the New Guinea front and patrol skirmishes in Burma marked the Far Pacific war today.  
Chungking dispatches said the potential danger to Changsha, capital of rice-yielding Hunan province, had become graver as Japanese invasion columns gained a foothold on the southern shore of Lake Tungling only 30 miles away.  
Previous Japanese landing attempts had been smashed, the Chinese said, but the enemy finally secured a beachhead.  
In the southwest Pacific, dispatches from Gen. Douglas MacArthur's headquarters said heavier fighting indicated a possible renewal of the allied offensive against Salamaua, New Guinea, which subsided in January after the allied conquest of the Papuan peninsula.

A social hour and refreshments followed the program and business session.

## WAR COUNCIL

(Continued from Page 1)

China, is in Wavell's sphere. The other two British officers from the India theater are Admiral Sir James Somerville, commander in chief of the eastern fleet based at Ceylon, and Air Chief Marshal Sir Richard Peirse, air officer commanding in chief in India.

There was no reason to believe that the question of a second front on the European continent was to be sidetracked; however, since Churchill also brought with him some of his other key advisers.

The expectation was rather that talks based on the situation surrounding the European invasion would be political rather than military, since the problems of the peace come constantly nearer as allied armies advance. It was recalled that the Casablanca conference brought about a working agreement between French generals, Giraud and DeGaulle — a political rather than a military necessity.

Informed London observers, on the other hand, said flatly that war strategy was the prime purpose of the conference although conceding political problems involved in the invasion plans undoubtedly were being discussed, as well as coordination of Russian and other allied moves.

**Benes Coming to U. S.**  
In connection with the internal European problems expected to attend an invasion, it was noted that President Eduard Benes of Czechoslovakia was due to arrive in Washington late today, after for conferences with Mr. Roosevelt. Benes was expected to present his plans for a post-war federation of central and eastern Europe, friendly to Soviet Russia.

In any case, the background for the discussions is certain to be military, and the pattern of future operations appears to call (1) for a supreme attempt to crack Hitler's "European fortress" wide open this summer and (2) for an

# MRS. STELLA LONDON CLAIMED BY DEATH

Passed Away After Long Illness  
Funeral Saturday.

Mrs. Stella London, 66, of Marion, died in City hospital after a long illness. She was born in 1877 in Covington, Kentucky. She was a daughter of Mr. and Mrs. James Evans Bruce. She was married to Charles L. London, who died in 1937. She is survived by her husband, Mr. Charles L. London, who is a former member of the Marion County Board of Health. She is also survived by her son, Mr. James L. London, who is a member of the Marion County Board of Health. She is also survived by her daughter, Mrs. Jessie Brown of Marion. Her funeral services will be conducted Sunday morning at 9:30 a. m. in the St. Mary's Catholic church, of which Mrs. London was a member. Rev. Father William J. Spitzer will officiate. Burial will be in Marion cemetery. Friends may call at the home after 10 o'clock.

# Blackout Plans Completed

(Continued from Page 1)

check, Lt. Col. C. B. Shaffer, commanding officer, said yesterday. In Marion county's only blackout, traffic signals remained on during the test, which lasted for 20 minutes. Tonight they will be turned off. In preparation for tonight's test, local CD officials expect a check which might last as long as 45 minutes. For tonight's blackout the signaling facilities of the Marion Steam Shovel Co., the Huber Manufacturing Co., and the Universal Cooler Co. will be used. Inspector Expected At least one inspector representing state headquarters will check the Marion county blackout. Possibly he will make a tour of the city during the test. This procedure was followed when a number of Army and Civilian Defense headquarters were here for the county's first blackout last December. Auxiliary State Highway Patrol: Auxiliaries from Crawford and Wyandot counties will augment regular state highway patrolmen and the Marion county auxiliary unit for tonight's blackout. A total of about 40 auxiliaries and three regular patrolmen, Donald Reo, Verne Herbert and Kenneth Taylor, will be on duty. The Marion county auxiliary includes 21 men under the direction of Capt. Walter Axthelm. The patrol will be stationed at the county line on roads leading into the county. Medical Unit: For tonight's test the medical unit will be divided into three mobile units, which will be set up at the Universal Cooler Corp., the Marion Steam Shovel Co., and the Olney avenue school. Each of these units will include two mobile squads which can be dispatched to any part of the staff in case of emergency. Each large mobile unit will be manned by a leader, an associate, four nurses and four orderlies. Each of the mobile squads will include a doctor, two nurses and two orderlies. A stationery operating unit will be set up at the Marion City hospital. The mobile squads will be under the direction of Dr. T. H. Sutherland. D. H. K. Mouser is director of the entire medical unit. Six regular ambulances and 40 converted ambulances will be available to the unit. Transportation: This unit is divided into two sections, passenger car division under the direction of Charles F. Parrish and the truck division under Carl S. Kay. The truck unit will mobilize at the parking lot on the southeast corner of North Prospect and Mill streets. The passenger car unit will mobilize at the Central Junior High school playground during the blackout in December. Ambulance Corps: About 65 members of the corps under the direction of Capt. Robert W. Brown will be on duty tonight. The corps will man posts at Edison Junior High school, the Armory, the Olney bakery, the North street street school building and the Marion City hospital. At each post a lieutenant will be in charge of corps activities. Staff Personnel: Under this division are the workers who will be on duty at the control center in the North street street school building. W. E. Orcutt will be in charge of the center and all activities conducted there. Other units which will participate in the blackout are the demolition squad under the direction of Harry Baidar, the road repair unit in charge of Ralph G. Wright, the utility repairs group headed by John D. Moore and a Red Cross representation.

# WORK HOURS

(Continued from Page 1)

except in view of the house's action. Governor To Sign Gov. Becker has indicated he will sign the bill. The measure was passed by the house 91 to 53, without a vote in senate. Speaker William M. McMillen cast the deciding ballot. Earlier the emergency clause was adopted 94 to 34. Mayor Lester William H. Deters of Cincinnati declared the legislation was solely needed by manufacturers who were having to violate present laws in order to meet war production demands. Organized labor had fought the proposal, contending it would lead to exploitation of women and children. The legislation was advanced to provide relief from a shortage of manpower in war plants and other industries, and its principal features are: 1. A maximum work week of 50 hours for women and minors, compared with the present legal maximum of 48 hours in occupations and 48 in most other industries. 2. Authorization for war plants to extend the 50-hour maximum in emergencies, subject to re-examination by the state directors of industrial relations and health if the excess hours should be injurious to the health of workers. 3. A 10-hour day, in contrast to the customary 8 hours. 4. Lowering of the age limit for employment of minors more than

48 hours, reducing that of women from 21 years to 18 and that of boys from 18 to 16; authorization for such minors to work any hours of the night, and 5. Legalization of the employment of women in occupations now barred to them, such as taxi driver, railroad section hand, driver of delivery trucks, freight handling and freight elevator operating.

Limit Set The relaxations would terminate when the war emergency ends, or not later than April 1, 1945.

The house voted down numerous amendments sought by organized labor, among them one limiting employment to 48 hours except in emergencies. Another amendment rejected would have provided penalties for employers discriminating against workers because of race, religion or nationality. It was offered by Rep. Chester K. Gillespie, Negro, of Cleveland.

# Columbus To Move Clocks Ahead Sunday

By The Associated Press COLUMBUS, O., May 12—Residents of the state capital will turn their clocks ahead an hour Sunday, giving the city two times because clocks in state offices must remain unchanged to conform with the law which made eastern standard the official Ohio time Feb. 21.

Mayor Floyd F. Green said he would sign an ordinance returning the city to eastern war time Sunday.

Dayton will be the state's only major city on slow time after Columbus moves its clocks ahead. Eastern standard time has been accepted generally only in smaller cities and rural areas.

# MEAT PRICES

(Continued from Page 1)

wholesale meat regulations, officials said. The grades and prices included in today's amendment are expected to be a deterrent to hidden price increases, will equalize competitors, and will aid substantially in enforcement of the price regulation, OPA officials said. When these new ceiling prices become effective Monday, they will supercede the ceiling prices meat dealers had been operating under in the past. The old ceilings were based on the prices dealers were charging as of March, 1942, those prices having been the base of the price freeze formerly ordered by the OPA. The list of prices shown in the chart above includes the cuts of meat most generally sold in the Marion area. This list is for stores in classes No. 1 and 2, defined as independents with an annual gross business of less than \$250,000. The ceilings for chain stores and large independent stores are slightly lower than those given in the chart above.

# SEVEN FORMER SHIPYARD WORKERS ARE INDICTED

By The Associated Press BALTIMORE, May 12—Seven former Baltimore shipyard workers were under federal grand jury indictment today on charges of violating the sabotage act by improperly welding ships under construction for the maritime commission. The seven defendants were accused under a section of the act which makes it a criminal offense for an individual to commit an act "with reason to believe that his act might injure, interfere with or obstruct the United States in preparing for and carrying out the war."

# ALL STATE LIQUOR STORES ARE CLOSED

Sales Suspended To Permit Ration Book Preparation.

By The Associated Press COLUMBUS, May 12—Ohio's retail liquor stores were ordered closed at 3 p. m. (Central) today to give personnel more time in which to prepare purchase books. The order came unexpectedly five days ahead of the previously scheduled "holiday" in which preparations for rationing were to be completed. Liquor Director Don Fisher said the action was necessary to overcome a manpower bottleneck brought on by a flood of applications for purchase books. Fisher announced recently the stores would be closed from May 17 to June 1, when rationing gets under way formally. Applications for purchase books have swamped all stores, however, it was necessary to order outlets closed so that personnel could devote full time to preparation of the books, Fisher explained. Fisher said an avalanche of forms descended yesterday and it became apparent previous plans must be revised. A great number of people, he said, waited until just before the Monday midnight deadline for mailing their applications and this increased the burden. The order did not affect wholesale stores maintained for permit holders. Fisher said an early sampling survey by the department indicated that from 60 to 70 per cent of all application forms obtained at stores were being returned and that on the basis of information received so far the registration for the initial rationing period—lasting until the middle of June—likely would not exceed 2,000,000. Previously department spokesmen expected a registration upward of 2,500,000. Fisher still was not able to estimate how much liquor might be allotted each registrant in the initial period, however.

# ILLNESS FATAL TO MRS. MARIA RUSH

Former LaRue Resident Dies; Rites Set for Friday.

Mrs. Maria Annas Rush, 90, died in the home of her daughter, Mrs. Lester McIntire of 400 East Fairground street last night at 10:30 after an illness of a year. Born May 3, 1853, she was the first child born in LaRue after its incorporation as a village. The parents, James and Sarah Johnson, were natives of Virginia. She was a member of the LaRue Baptist church from childhood. Her husband, Henry Rush, died in LaRue in August of 1908 and she came to Marion to live 30 years ago. Surviving are the following children: Mrs. McIntire, in whose home she died, Phillip Rush of North Prospect street, James Rush of LaRue, nine grandchildren and six great grandchildren. Funeral services will be conducted Friday afternoon at 2:30 in the Boyd and Unclinger funeral home on West Columbia street. Burial will be made in the LaRue cemetery. Friends may call at the McIntire home after 7:30 tonight and until 10 p. m. Friday morning when the body will be taken to the funeral home where friends may call after 11 until service time, 2:30 p. m.

# BOMBS KILL TWO

LONDON, May 12—Two persons were killed and others were reported trapped in the wreckage of buildings today when German Focke-Wulf fighters skimmed in low from the sea to attack the East Anglian coastal town in a daylight raid. Afternoon the two boys, whom the Mollenops had given a lift in their car on their way to town, confessed to the destruction of property and also admitted having killed two more small pigs on the Leo Sharrock farm on their way home. When questioned about recent acts of vandalism at the Burycus livestock auction, the boys, who were 14 and 15, admitted the acts. The older of the two youths has a previous juvenile court record.

# 2 YOUNG VANDALS RUN RIOT IN HOUSE

Special to The Star BUCYRUS, May 12—A spree of vandalism which put two Crawford county boys, ages 14 and 11, behind bars of the county jail while juvenile authorities pondered their case, brought havoc to the farm home of Mr. and Mrs. Otto Mollenop, Holmes township, Monday.

In town for the afternoon, the Mollenops found their newly cleaned and papered farm home in a state of upheaval when they arrived home. Contents of case of 12 dozen eggs stored in the basement, had been thrown about the walls and furnishings of both floors of the home, drawers ransacked and contents strewn about the house, a dresser pushed down the stairs and pictures broken. The pet cat had been bludgeoned to death and left lying in the house, four pigs killed and 30 young chicks clubbed to death. Taken into custody late in the

# African Debauchery

Opens Gates for Drive on Europe

By DEWITT MACKENZIE Prime Minister Churchill's arrival in Washington is a further stimulating exhibition of that friendly allied cooperation and collaboration of effort which make the great Tunisian victory possible. It is the axis debacle in North Africa of course. That has opened the flood-gate of possibilities for direct assault on Hitler's European fortress—or what he hopes is a fortress. It also may ease the way for extension of activities against the Japs. There has been no indication of what line the Washington conference might take. It would be surprising, however, if the fundamental strategy of knocking out Hitler first should be abandoned in favor of shifting to the Orient. We now have Hitler in serious difficulties as the result of the policy of concentration. We achieved success in Tunisia by hitting the weakened axis forces ceaselessly and furiously at many points simultaneously. Whether we are in position to apply these methods to the all highest on the continent is something which will be determined at Washington in consultation with Moscow, but the conference may decide that the time to catch a June bug is when he's on his back. In any event, intensification of operations against the arch gaster wouldn't preclude extension of activities against the Japanese. Allied production has reached huge proportions, and the reclamation of the Mediterranean zone with its invaluable shipping routes has eased the situation so that doubtless more help can be sent to General MacArthur. This is a far different occasion from the first meeting of the two great figures in August of 1941 when they held their historic Atlantic conference. That was less than two months after Germany struck at Russia with all the power of the mightiest fighting machine ever constructed. The Germans were sweeping all before them, and the master Hun's hoarse cries of triumph were ringing around the world. Those were days of grim anxiety for the allies, though never of despair. Despite the gravity of the situation Messrs. Roosevelt and Churchill ruled out any chance with "Nazi Gerny." They offered Stalin maximum help.

size. They said no steps apparently had been taken to reduce the costs of the combined probate and juvenile courts. Expenditures in this department have increased each year with a further increase provided in the appropriations for 1943. Mr. Evans said. The operating cost of the county home per inmate was also cited as above average and Mr. Evans recommended that greater farm production would reduce the amount of food purchased and would also increase receipts from the sale of produce from the county-owned farms. "Expenditures of the sheriff's office are much higher than those of other counties similar in population to Marion county. This due largely to the employment of a road deputy, which appears justified in view of the influx of construction and demolition plant workers and also to the need for protection of such plants," Mr. McWilliams continued.

The county election board was pointed as another office where reductions in expenditures could easily be made. The survey pointed out two precincts in the county which could be combined with a considerable savings.

An 80-page report in which the C. of C. recommendations appear advises moving the administrative offices of the county board of education, aid of dependent children and aid for blind to rent-free quarters in the building now occupied by the relief department. This would result in a savings of \$900 annually, the report pointed out. Since Mr. Evans and Mr. McWilliams visited Marion to make the survey the offices of the county board of education have been moved into third floor quarters of the courthouse. This move made use of the last available space in the courthouse under the present floor plan. The report recommended the of-

boys are making at the front. We're going to have to buy bonds, and buy till it hurts. I know some farmers don't like to buy bonds when they're paying interest on debts. But this is important. I'm paying a higher interest on some obligations than I'm getting out of my war bonds, but I'm buying more bonds, and everyone else must buy them. I know there's more than a financial investment—it's part of our job in the war. He also commented that farm prices are up substantially from two or three years ago, and declared all farmers should divide their extra income with Uncle Sam.

# Speaks To Mothers

When Chairman Schoenlaub presented Mr. and Mrs. Danner, he called on Mrs. Danner to speak as a Gold Star mother of the current war. She declared all mothers who have given sons in the war or who have sent them into service should get into the bond fight on the home front. Mr. Danner explained briefly the details of the bomber campaign. Mr. Jones, after directing the banding choir in several numbers, launched the bond selling in a novel manner. He had the choir start one song, sing the first bar of the number and then stop. "If you want to hear the rest of this song, you'll have to buy some bonds," he declared. In just a few seconds, Chairman Schoenlaub waved a slip from the back of the room and announced, "Here's one for \$1,000." The choir promptly resumed its number. The bond had been purchased by J. E. Kauffman and was the largest sold last night.

After the choir finished its program and was thanked for its help by Mr. T. Lewis of the Marion group attending the rally, John Ruff, lecturer of the United Grange, presented a program. It included a flag drill by 13 girls in charge of Mrs. Emmett Trout, who was assisted in training the group by Mrs. Lawrence R. Ruff. Other numbers were a trio, Mrs. Carl Van Gordon, Mrs. John Ruff and Mrs. Margaret Hower, accompanied by Mrs. Grace Halay, play, "Dot Entertain," Harold Trout and Wayne McGinnis; accordion solo, "Polly Krainer," play, "Beat It," Ferdinand Lawrence and Ferdinand Lawrence; recitation, Ferdinand Lawrence Jr.

# Bomber Drive Sales

Now Over \$109,000

Yesterday's sales of \$16,206.23 pushed Marion county's bomber drive total to the \$109,987.50 mark and showed a substantial increase over the average daily purchases reported earlier in the campaign. As matters stood today, nearly 34 per cent of the \$325,000 quota had been raised, but leaders pointed out that more than 34 per cent of the month has passed. They urged workers to continue their efforts to step up the daily rate of sales.

One report today brought encouragement to drive leaders. It came from the Marion members of the National Organization of 10 members, who reported it had sold or purchased bonds totaling \$8,131.25. Its quota of \$10,000 was expected to be reached by tonight.

face of the clerk of courts, the county home and the children's home for reducing operating costs. This resulted in a savings totaling \$3,000 during 1942. A reduction in the average cost of meals served inmates at the county jail was also approved.

# SEVEN FORMER SHIPYARD WORKERS ARE INDICTED

By The Associated Press BALTIMORE, May 12—Seven former Baltimore shipyard workers were under federal grand jury indictment today on charges of violating the sabotage act by improperly welding ships under construction for the maritime commission. The seven defendants were accused under a section of the act which makes it a criminal offense for an individual to commit an act "with reason to believe that his act might injure, interfere with or obstruct the United States in preparing for and carrying out the war."

**WHEAT STAGES RALLY AFTER EASY OPENING**

By The Associated Press  
CHICAGO, May 12.—Wheat staged a rally after an easier opening today, covering by previous short sellers sending prices up about a cent above the preceding session's close. Local traders and commission houses bought, but there was no pick-up in mill buying.

Oats and rye, off earlier, followed the leadership of the bread cereal toward the close. Another steamer carrying Canadian rye was reported on its way here, although the quantity of grain involved was not known. About 600,000 bushels of Canadian rye have arrived here in the past several days.

# Pitfalls of Love

By ADELE GARRISON

THE YOUNG MAN named Dixon started like a colt unexpectedly reared, for my father's voice had stung him.

"What—what do you mean?" he faltered. "I—I don't see."

"I'll tell you later," my father said. "First, tell me exactly what precautions you took at that last apartment house?"

"The ones I always take," Dixon replied. "I saw that she got up in the elevator; then I went up in the next one, got chummy with the operator and found out what floor she got out on. He said she had inquired for a Mrs. Myers on that floor, and that Mrs. Myers came out to meet her. I asked him whether there was another entrance to the building and he said no, then I went back to the entrance and waited until she came out again."

Not Censored

"You took all the usual precautions," my father said, "and I cannot censure you. Did any woman come out of the apartment building while you were there?"

"Yes, a lot of them," Dixon replied.

"Yes, and I see how it was done," he said excitedly.

"Tell me," my father sharply commanded.

"Why, about ten minutes after she went in, a taxi drew up in front of the apartment house, and a minute later three women came out, not from the elevator, but from the back, where the stairway goes up."

"Two were tall, one short. Of the two tall ones, one wasn't the Hayes woman. The other was in deep mourning, and heavily veiled, so I couldn't see what she looked like."

All Explained

"And yet they must have walked down," my father mused. "and that undoubtedly was the way she got out. Did they come back again?"

"Yes, but it was almost an hour later. About ten minutes later the Hayes woman came down in the elevator and out to the street, where I tailed her again."

"Well, go into that later," my father said a bit impatiently. "Just now, tell me what floor was the Myers apartment on?"

"The third," Dixon replied.

## The Stars Say—

For Thursday, May 13.

UNDER CONFLICTING planetary aspects this may be a day calling for much discretion, sagacity, good nature and prudence, although fair progress is indicated. To be attained by cleverness, stability and straightforward measures yet a sudden and unpredictable circumstance may throw things off balance. Take others into consideration, as private affairs may bring happy reactions. Safeguard and sign all documents or writings with caution. Maintain poise and calm.

Those whose birthday it is may be on the eve of a year of contradictory prospects, with private domestic or affectional affairs giving satisfactions while business matters may be the target for a surprising blow. Balance, calm judgment and well-considered moves rather than impulsive acts, emotional outbursts or wild urges to make changes or go traveling, might turn the tide to success and progress.

A child born on this day may be high strung, changeable, temperamental and nervous, which may beget reversals and defeat in business, although it may be engaging and charming in its personal revelations.

ple, especially those who chew tobacco, have ruined their health for life by creating an inflammation of the stomach and bowel and consequently, malnutrition and underweight.

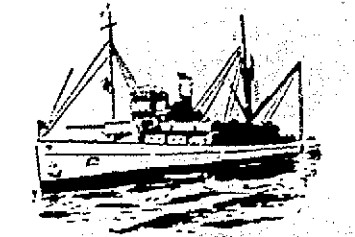

The key to the whole subject of the use of tobacco is the word "moderation," but that is a very difficult word to define. The trouble with moderation is that people start in and say they are only going to have one cigar or one cigarette, and then they go on to five or six. The chain smoker is certainly not acting moderately.

For nervous, high-strung people and those with a tendency to indigestion or heart pain, I believe tobacco is distinctly bad. For moderate smokers it is harmless and a joy added to life.

## What You Buy With WAR BONDS

Help for the Navy

Our mighty fleets on the seven seas are composed not only of war ships, but include hundreds of various types of auxiliary vessels, essential for fleet operation. One of these is the submarine repair vessel, mightily important for successful submarine warfare. It costs about \$2,215,000.

Your purchase of Government Bonds now means Victory today and Security for tomorrow. Our soldiers, marines, sailors and airmen must have the best tools of war we can give them. They give their lives—You lend your money.
